

Aluminium Tape

DTA

Description

This aluminium, self-adhesive foil tape is widely used in the construction industry for pipe lagging, duct sealing, heating and ventilation. It is fire-rated to the recognised 'Class O' certification.

Benefits

- Suitable for joining pipe lagging, heating and ventilation repairs
- Fire resistant- Class O
- Self-adhesive
- Available in a variety of roll sizes

Dimensions

DTA	Silver	50mm x 45m
DTA75	Silver	72mm x 45m
DTA100	Silver	96mm x 45m

Performance Data

Adhesive	Cold water solvent acrylic adhesive
Carrier	Easy-release silicone release paper
Total Thickness	70 micron
Backing Thickness	30 micron
Adhesion to Steel	15N/25mm
Tensile Strength	45N/25mm
Rolling ball tack	5cm
Service temperature range	-35°C -> + 120°C
